

First Call Pest Control

REMINDER TO PUT A NOTE IN YOUR CALENDAR: Leave your patio gate unlocked on the SECOND TUESDAY of EVERY month in order for your townhouse perimeter to be sprayed for pests.

First Call Pest Control provides Pest Control Services specializing in ants-ticks-fleas-roaches-spiders-silverfish-bed bugs-fire ants and rodent extermination and protection.

First Call Pest Control provides a pest spraying service in Forest Lake, which is a service included in your HOA fees. On the **SECOND TUESDAY of every month**, First Call Pest Control will spray the base of the perimeter wall of every townhome, as long as residents have not blocked access to their Unit. If your patio gate is locked, they cannot spray at the patio area of your unit. If you have placed plants or other items adjacent to the wall, they will only spray around them.

After spraying in your patio, they will **NO LONGER punch the monthly calendar tag. If you have ANY CONCERNS or QUESTIONS, or if First Call Pest Control misses your patio, call Will Rogers directly at 239-247-1534** and they will return quickly to spray your patio.

In addition to this exterior service, **First Call Pest Control** will deal with wasp nests, or **spray INSIDE a Unit, on the request of the homeowner**. Residents request this service by contacting **First Call Pest Control: Will Rogers directly at 239-247-1534 (When you provide your address, provide the reminder that this is a paid service provided by the HOA)**. If any questions or difficulty contacting them, the service can be arranged by our Tropical Isles Management Services representative who is on-site at the Clubhouse on Tuesdays from 7:30 - 10:30 am, and on Thursdays from 3:00 - 6:00 pm (except holidays and vacations), or contact by phone or email provided on our website.
